## Reduce Maintenance Cost by Extending Oil Life.

### COMPACT PORTABLE PURIFIER

The Pall HNP-006 purifier removes water from oil in low volume systems or where access for conditioning equipment is limited.

#### Specifications

- 2.6 gpm Flow Rate
- 120 V / 60 Hz / 1 ph
- Viton Seals

#### Shipping Information

- 37" L x 28" W x 54" H
- approx. 340 lbs.

### VRF VARNISH REMEDIATION SYSTEM

The Pall VRF (Varnish Removal Filter) will dramatically reduce the varnish potential of the fluid, ensuring long, healthy operation and control of gas turbines.

#### Specifications

- 11 gpm Flow Rate
- 480 V / 60 Hz / 3 ph
- Viton Seals

#### Shipping Information

- 87" L x 51" W x 86" H
- approx. 2,025 lbs.

### PORTABLE OIL PURIFIER

The Pall HLP-6 portable fluid purifier removes free and dissolved water, air and solid contaminants from hydraulic and lubrication fluids.

#### Specifications

- 6 gpm Flow Rate
- 480 V / 60 Hz / 3 ph
- Fluorocarbon Seals

#### Shipping Information

- 75" L x 62" W x 97" H
- approx. 1,575 lbs.

### PORTABLE OIL PURIFIER

The Pall HLP-22 combines the water removal performance of mass transfer purifiers with high reliability and ease-of-use. The purifier removes free and dissolved water, air and solid contaminants from hydraulic and lubrication fluids.

#### Specifications

- 22 gpm Flow Rate
- 480 V / 60 Hz / 3 ph
- Fluorocarbon Seals

#### Shipping Information

- 92" L x 66" W x 96" H
- approx. 2,800 lbs.
